

Dear Parents,

Your children attend a German course at school. In addition, we are offering a free intensive language course during the holidays. This will help your children learn German faster. They will then be better able to participate in class.

The German teacher at your child's school will determine if your child should take a holiday course. They will enrol your child in the holiday language course if you, as parents, provide your **consent by form**. **You cannot register your child yourself!**

The holiday language course lasts one or two weeks. The course has 20 lessons (Easter holidays and Whitsun holidays) or 40 lessons (summer holidays and autumn holidays). The course is held in the morning or afternoon. The children are taught by another teacher (from the VHS adult education centre).

Above all, a lot of German is spoken in the courses. The group size is 6 to 10 pupils. There are courses for primary school (classes 1 – 4), courses for classes 5 – 10 and courses for pupils of vocational schools.

Please note:

Registration for a summer language course is binding and regular attendance is mandatory.
